## Project

### FOOD RECIPE WEBSITE

It is a Food recipe website created using react.js node.js express.js and mongodb which enables users to share their food ideas and to view others recipies and know different tastes.

### CALCULATOR APP

A simple calculator application with a user friendly interface and it is used to perform simple mathematical calculations.  
Ive used HTML CSS and JavaScript to build this application.

### WEATHER APP

An application used to find the current temperature at a particular place.  
Ive used HTML CSS JavaScript and OpenWeatherAPI to build this application.
